

**Prismatic stop 120° with t slot guide and clamping  
for DEMM universal comparative meas. instruments QUICK CHECK  
150x10mm**

**Product** 1390410

**number:**

**EAN /** 4066918051899

**GTIN:**

**Customs** 90318020

**code:**

**Delivery** Parcel delivery service

**method:**

**Weight:** 0.5kg

### Product description

- Works standard
- Hardened special steel
- For reliable diameter measurement without search of the reversal point.
- Repeatability of the mechanic  $\pm 0.001\text{mm}$

**Delivered in individual packages without universal comparative measuring instrument and dial indicator**

#### **Operation:**

- The V anvil can be slided in the slot and adjusted for different diameters.
- Pre-setting through setting master or measuring disc
- The required correction factor is entered into the dial gauge display and shall remain saved.
- The correction of the measured value follows automatically.
- The user reads the exact measuring result directly on the dial gauge display
- Further calculations are not necessary.

**! A dial gauge with conversion factor – function is needed. We recommend digital dial indicator No. 1301 106**

**! The mentioned workpiece Ø refers to standard QUICK CHECK No. 1390 101**

**! Larger workpiece Ø on request.**

## Technical Data

**Size:** 150x10mm

**Article no.:** 1390410

**Brand:** ULTRA

**Dimension:** 150x10mm

**For work piece Ø:** Max. 135mm

**Material:** Hardened steel

**V stop:** 120°

**Weight:** 0.5kg
