

Product number: 1399501

# Digital universal comparative measuring instruments in box DIGI BASCOM for inside and outside measurements 20-200 / 0-138mm

Product number:	1399501
EAN / GTIN:	4066918053183
Manufacturer number:	11062
Customs code:	90318020
Delivery method:	Parcel delivery service
Weight:	0.6kg

# Product description

- Works standard
- Protection class IP54, Sylvac System
- Bar stainless steel hardened, guiding elements made of aluminium
- Large LCD display, reading 0.01mm
- Locking screw and fine adjustment
- Reversible measuring direction
- Adjustable measuring force
- Interchangeable measuring inserts
- Dial gauge reading 0.01mm
- Adjustable tolerance marks
- Measuring depth stop adjustable in 5mm steps

### Delivered in a case incl. dial gauge, measuring inserts with ball Ø 3mm, depth stop and measuring arms (pair)

## Functions:

- On/Off
- mm/inch commutation
- Zero setting at any position
- Preset function ±
- Hold function
- Data output Opto

## **Applications:**

- Inside and outside measurements, with special measuring inserts also in slots and recesses
- All standard measuring inserts with connection thread M2.5 or shaft Ø 3.5mm can be mounted
- Thread measurements with thread inserts shaft Ø 3.5mm No. 2048 5.. / 2048 6..
- Gear tooth measurements with measuring balls in holder No. 2050 3.. and adaptor bolts No. 1390311

#### **Operation:**

- The setting of the instrument will be made by using for example a Ø 50mm setting ring gauge, the digital display will be preset to the value 50mm and the dial gauge will be adjusted to 0 (reversing point!).
- By sliding the right jaw (electronic device) you can now preset each value up to the complete measuring range of the instrument.
- The deviation of your work piece, in comparison to your preset value at your digital display, will be read at the dial gauge in 1/100mm (reversing point!).

#### Advantage:

• One setting master is sufficient to adjust the instrument and to be able to use it after that for any size within the instrument capacity.
