

**Prismatic stop 120° with t slot guide and clamping  
for DEMM universal comparative meas. instruments QUICK CHECK  
150x10mm**

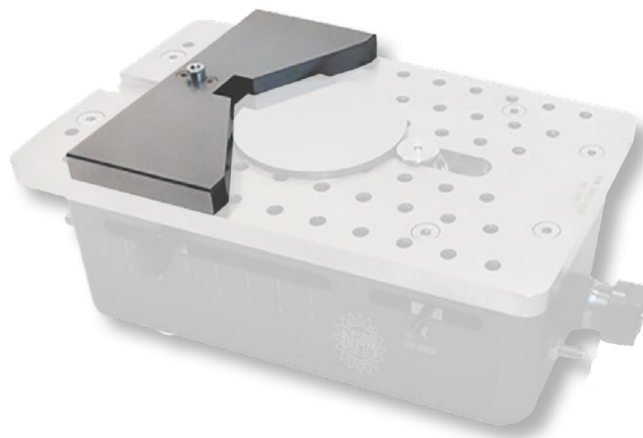

**Product number:** 1390410

**EAN / GTIN:** 4066918051899

**Customs code:** 90318020

**Delivery method:** Parcel delivery service

**Weight:** 0.5kg

## Product description

- Works standard
- Hardened special steel
- For reliable diameter measurement without search of the reversal point.
- Repeatability of the mechanic  $\pm 0.001\text{mm}$

**Delivered in individual packages without universal comparative measuring instrument and dial indicator**

### Operation:

- The V anvil can be slid in the slot and adjusted for different diameters.
- Pre-setting through setting master or measuring disc
- The required correction factor is entered into the dial gauge display and shall remain saved.
- The correction of the measured value follows automatically.
- The user reads the exact measuring result directly on the dial gauge display
- Further calculations are not necessary.

**! A dial gauge with conversion factor – function is needed. We recommend digital dial indicator No. 1301 106**

**! The mentioned workpiece  $\varnothing$  refers to standard QUICK CHECK No. 1390 101**

**! Larger workpiece  $\varnothing$  on request.**
